Our efficient and obliging railway agent, E. B. Clark, informs us that the business of his office is nearly three times greater than it was a year ago and is still increasing right along. Watch Hood River expand.

Mrs. S. A. Knapp has just received from Portland a nice and complete line of ladies' fall hats and millinery, including the Golf hats which are all the rage. Miss Carrie Shute is assisting Mrs. Knapp with the work of trimming, etc.

Marshal Olinger "ran in" a drunk and disorderly on Sunday last, who had just arrived on the westbound train, so loaded with bug-juice that he could scarcely lie on the ground. After a brief sojourn in the "cooler" he was sent on his way rejoicing.

R. Rand has sold his brick making machinery and entire outfit to L. D. Boyd, the contractor, who expects to burn about 300,000 brick on the J. B. Rand place, on the east side of the river, next spring. This number will not be sufficient, however, for the several large buildings to be erected here next spring.

R. Rand, on Thursday of last week, sold to H. Pugh, a 24-acre farm, lying 1½ miles south of town, consideration \$2000. Mr. Rand takes, as part pay, a number of lots lying in East Hood River, near the river. A nephew of Mr. Pugh, who recently came out from the East, will occupy the farm with his family.

We acknowledge receipt from County School Superintendent, C. L. Gilbert, copy of the program for the Eastern Oregon State Teachers' Association, to be held at La Grande on Nov. 1, 2, and 3. It promises to be more interesting this year than ever before.

He expects to spend the winter here with his family.

Walter Koplin, one of Frankfort's wide-awake young men, having finished the higher grades in the Frankfort school, is now attending Prof. Thompson's school in Hood River. Prof. Thompson, being one of the ablest instructors on the Pacific Coast, makes it unnecessary to send pupils away to distant and expensive colleges.

Among the outside subscriptions sent in for the Stux this week was one from A. A. Schenck of Baraboo, Wisconsin; and another from Wasco county's efficient and popular sheriff, Robt. Kelly, of The Dalles. Mr. Kelly concludes his letter thus: "Let the light of the Stux continue to shine in this office; life would be a burden without it."

E. meeting, led by Miss Grace Howell, 7 p. m.; preaching, 8 p. m.—theme, "The Real Test of Sincerity." A children's sermon will precede the morning service. A cordial invitation is extended to all.

J. P. Watson, before leaving this week for Omaha, sold his lot in South Waucoma to Geo. P. Crowell, the merchant. South Waucoma is the name given to that portion of the town of Hood River, lying around the beautiful home of Capt. Coe, about midway between the business portion of town and Paradise farm. Waucoma is the Indian name for Hood River and means Cottonwood.

We had a pleasant call Friday evening from Messrs. M. P. Isenberg and John Donohue, two substantial farmers and fruit growers from the Belmont neighborhood. Mr. Isenberg has been prominently identified with republican politics, and bears the distinction of being the only man in the United States who voluntarily resigned a fat government position. During Harrison's administration Mr. Isenberg, a native of Pennsylvania, was appointed special agent of the land department, the duties of which kept him on the move almost constantly in all of the states west of the Mississippi. Becoming tired of being absent from his family, and so much travel, he concluded to resign his position and locate in Hood River valley, which he considers the finest garden spot and most delightful climate in the United States.

Tambourine Drill. The Ladies' Aid Society of the Hood River United Brethren Church have prepared a very pleasing program to be rendered in the new Armory Hall on Tuesday evening, Oct. 17th at 8 o'clock. The participants have given to considerable trouble in order to give an interesting entertainment and a large crowd will greet them. The program is as follows:

Piano Solo. Ladies Quartette—"The Roses." Solo—"The Organ." Mrs. J. R. Nickelson. Mother Goose's Reception and Drill—by sixteen boys and girls. Double Quartette—"The Distant Horn is Sounding." Messrs. Nickelson, Gregory, Bartmes, Haynes, Knapp, Clark, J. E. Rand and D. E. Rand.

Nora Win-the-Reynolds, under 12.

Last week our type made it read that owing to the rapid growth of the post-office here, the office soon would doubtless be raised from a fourth to a third-class office, with \$1000 a year salary. Our popular postmaster, Wm. Yates, informs us that it has already been raised to a third-class office, with \$1100 a year salary, the raise having been made a couple of months ago. Doubtless it will be soon raised to a presidential office.

Wm. M. Stewart, of the wide-awake mercantile firm of Rand & Stewart, is not only a competent business man but also a pronounced disciple of Ike Walton, the famous fisherman. In fact Mr. Stewart would rather miss a meal any time than a chance to bag a few fine salmon trout, and he spends a good deal of time at this, his favorite amusement. The other day he caught such a whopper at the bridge over Hood river, five miles south of town, that the strain in pulling him out of the water made Billy bow-legged. But he doesn't mind a little thing like that since he landed the fish, which weighed 18 pounds.

Deserves Heavy Damages. Hon. E. S. Joslyn of Colorado Springs, Colo., has been visiting this section of the world for the past week. Mr. Joslyn is the pioneer settler of White Salmon, having moved there in the spring of 1853. In the fall of 1855 the idiotic meddling of a set of military dough heads with the resident Indians of the Klickitat tribe, wrought them up to such a pitch of hostility that Mr. Joslyn was obliged to move his family to safer quarters. Early in the spring of 1856 the savages burned his home and buildings, and after the Cascade massacre the government took possession of his farm, using it for three years as a reservation, and almost completely destroying what the Indians had left. In addition to the loss of his improvements the Indians killed or drove off his live stock, so that on his return at the end of the government occupancy of his farm, Mr. Joslyn found absolutely nothing left except a couple of log houses built for the use of the agency. Not only has the government refused to make good the damage done by its dusky wards, but has also refused to reimburse him for the time they used his farm for a reservation.

For over forty years Mr. Joslyn has urged the justice of claims upon congress without avail and now when all other plans have failed he proposes to invoke the strong arm of the law. He started the past few years he has watched with indignation the thousands of robber pension claims that, having been refused recognition by the pension bureau, were rushed through congress, while the righteous claims of men who dared to trust themselves far beyond the pale of civilization is thrust aside. After enduring all the dangers and privations of pioneer life he cannot obtain a paltry rental of his home that the government took from him by force.

Mr. Joslyn is a well preserved man of 74 years of age and has hosts of friends who wish him every success in his endeavor to obtain justice.

A Great Industry. One of the greatest industries in Hood River valley is the Davidson Fruit Co., H. F. Davidson, president, and A. P. Bateham, secretary. During the busy season last spring for several months over 100 ays and girls were employed in this great canning establishment, which is one of the largest in the state, outside of Portland. They make their own crates and boxes and furnish them to fruit growers at cost. Next season they will enlarge their building and plant to double its size and capacity and put in a great deal more machinery. The company owns a great deal of the finest strawberry land in the country, besides rents 20 acres from Dr. Adams, at the Paradise farm. They also do an enormous commission business.

The members of this company are all progressive business men, who understand their business thoroughly, the president, H. F. Davidson, having been one of the original incorporators of the Hood River Growers' Union, for which he was secretary five years. With such an institution right here at home, which furnishes a market for all kinds of products, at the highest cash prices, it certainly is a great inducement for the fruit and berry growers to go into the business on a larger scale.

Hassalo Club. The "Hassalo Club" is the latest organization in Hood River. It was gotten up by the representative young men of the town for the purpose of providing a nice respectable place of amusement, where the long winter evenings can be whiled away reading, singing, playing all kinds of games, social intercourse, athletic performances and a general good time. The initiation fee is \$5, and \$1 per month dues. The place of meeting is in the Middleton Hall, and starts off with the following members:

W. Davidson, president; C. N. Clarke, vice-president; W. S. Gregory, secretary; Lew M. Davidson, treasurer; Arthur Davidson, Frank Davidson, Edward Johnson, John J. Meyers, G. E. Williams and D. E. Rand.

Directors: Wm. Davidson, W. S. Gregory, L. M. Davidson, Ed Johnson, C. N. Clarke, Arthur Davidson and E. Rand.

Tambourine Drill. The Ladies' Aid Society of the Hood River United Brethren Church have prepared a very pleasing program to be rendered in the new Armory Hall on Tuesday evening, Oct. 17th at 8 o'clock. The participants have given to considerable trouble in order to give an interesting entertainment and a large crowd will greet them. The program is as follows:

VALE.

Viento Vibrations. Ed Miller went to Hood River last Saturday.

H. C. Jackson is building an addition to his residence.

Mark Robertson, who turned down Filipinos for a year, is now turning down logs at mill A.

The O. L. Co. has had a new house 22x24, built in the upper end of town. Viento is having quite a building boom.

J. W. Curteman of Mill A, made a trip to Oregon City, today. He is thinking of investing in some real estate at Gladstone.

The families of Messrs. Boutin and Davis arrived last week from Wisconsin and are now comfortably located in the Water Tank addition to Viento.

Jim Brennan is tenderly watching the expansion of a boil on his knee cap. His petition to the throne of grace are invoked in a standing posture only.

Mr. Johnson, the Vancouver jeweler, is in town. He makes monthly trips here to put in new gear in the boys' watches, as they wear them out trying to keep time with the whistle.

When you want to send small or large sums of money away, don't buy stamps or enclose money in an envelope. Mr. Chas. T. Early, our obliging Nashby, will issue you a money order of the latest cut and pattern, while you wait; and it is absolutely safe.

Squire Bird has offered premiums, to tie the knot without charge, and to even kiss the bride as an inducement to those matrimonially inclined, but all to no purpose. Some people in Viento seem to think that there is a cheaper way yet. It may be cheaper but it don't look quite as well.

Our preacher is feeling blue. He has just discovered that the little angel that allowed him to hug and kiss her on a dark night last week and promised to marry him was only a common ordinary young man, fitted up for the occasion by some fun-loving members of his church.

"Twas ever thus, from Solomon to Beecher: Set a petticoat and you'll catch a preacher."

Mr. Mark Cameron and Ross Miller gave an evening dress ball at the "Chitty Grande" Saturday evening. It was well attended and was one of those institutions which might properly be denominated as a "function." Several of the boys had on "biled" shirts and one young man from Hood River wore a but-tonette bouquet as big as the merchant-dance account in a monthly statement.

Lemonade and "Sam handwatches" were served at intervals. All the girls had fellers and some of the brevet widows had too.

Wm. P. Watson, Esq., Hood River, Or. DEAR SIR:—Your shipment of vegetables and corn came duly to hand, was placed in Exposition and attracted the lion's share of attention. The celery is being kept watered and in good shape as well as the peppers. A Mr. Spiegel of Lever & Spiegel, want to purchase your entire crop of celery. Every one that knows good celery say that the like they never saw grown on the Pacific Coast.

Robt. Leasure was getting in his second crop of oats last week Mr. Nix is putting up a large two-story house. We understand he is going to keep "Summer" boarders.

Geo. Whinner and Pete Foldthousen have put in considerable time in the mountains this summer and have just reported finding some rock that assays \$140 to the ton.

We had Mormon preaching last Sabbath. I don't see what good the Mormon faith would be in our neighborhood as most of our citizens are bachelors who can't get one wife, let alone a dozen or two.

Rev. Frank Spaulding and Mr. Parsons, of Hood River, came up Thursday to visit friends and look at the country.

Mr. Spaulding has been obliged to move his family to Hood River on account of sickness.

There seems to be quite an attraction in the German neighborhood of the lower valley, as some of our young men can be seen going that way most every Sunday. Hurry up, boys, winter will soon be here.
